

## To run these files:

1. From a terminal session (with graphics enabled) run the following commands:  

```
module load texlive/2020
module load R/4.1.1
rstudio
```
2. Within Rstudio, you will need to install Rmarkdown:  

```
install.packages('rmarkdown')
library(rmarkdown)
```
3. Load the qualtrics.Rmd in rstudio.  
File → Open File → Navigate to and select qualtrics.Rmd
4. When the file is open, please change the working directory to wherever you files  
Change:  

```
setwd("<your_file_path")
```
5. “Knit” the markdown file as either a pdf or word document, by selecting the dropdown next to “Knit” and then selecting either “Knit to PDF” or “Knit to Word”

**NOTE THAT THESE SAME OPTIONS ARE NOT AVAILABLE IN A REGULAR RSCRIPT FILE**
